

## Financial Statement Generator

Access all your General Ledger and SLA data in real time with powerful searchable reports.

Are you frustrated and unable to drill down on transactions in your financial reports? Are you still having your IT staff run around to get data from multiple systems to get next level details and insights? Digging deep into financial data across General Ledger and SLA is a time consuming and manual process. With no interactive and user-friendly interface, coupled with complex drill down flows, it's a daunting task to get to the root of a transaction.

CloudIO FSG leverages your investment in Oracle Financials and immediately makes you more productive. The reports are powerful, interactive and searchable. With real time data and drill downs on your fingertips, you can now report to the Nth degree.

### Key Capabilities & Benefits

- Access all your General Ledger and SLA data in real time for time-critical financial period close reporting
- Powerful and interactive UI allowing you to drill down to the Nth degree.
- Searchable reports allowing you to get to what you want faster
- Fully integrated with Oracle EBS to use the existing FSG definition and provides a modern user interface that overlays on top of Oracle EBS data
- Enhanced, highly user-interactive FSG reporting where users can drill down from GL to respective sub-ledgers
- View the entire E-Business suite data from GL Balances to AP, AR, FA and Cash management

*"Every time there was a question asked by the controller, we had to scramble across various systems to find the underlying details of the transaction in question. With CloudIO FSG, drill down is a breeze. We look like heroes as we have the answers on our finger tips"*

— FINANCIAL ANALYST **FORTUNE 500**

## Traditional Oracle Financial Reports

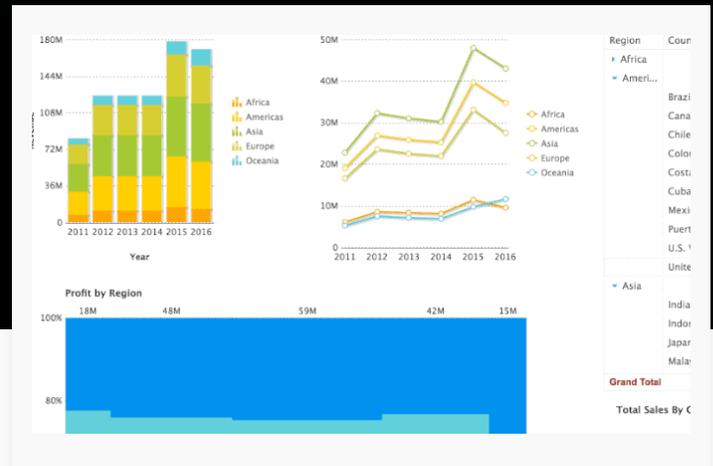

General Ledger

Company Balance Sheet
