

Supplier Connect

Manage suppliers at scale.

Are you still onboarding and managing suppliers the old-fashioned way? Are you crumbling under the burdens of manual processes, untimely responses and forgotten action items?

Managing more than a few suppliers manually is a herculean task. Right from onboarding them and getting their TIN & DUNS numbers, to tax forms and bank information; to ongoing manual work dealing with P.O.s and invoices.

Now with CloudIO Supplier Connect, you can streamline communication, and enhance collaboration with your suppliers while you achieve improved process automation and enhanced productivity.

Key Capabilities & Benefits

- Rapidly and seamlessly onboard suppliers at scale via a self-service portal. Eliminate all the headache associated with onboarding, right from finding and getting their TIN & DUNS number, to tax forms and bank information.
- Automate your processes eliminating routine manual work dealing with P.O.s and invoices typically done over email and telephones.
- Enable suppliers to self-serve, giving them full visibility on progress of open activities
- Gain full visibility into supplier relationships
- Improve utilization of key resources/staff through process automation by eliminating error prone and manual work
- Significantly improve supplier relationship due to improved accuracy and efficiency

"We had a huge challenge managing a large number of suppliers and manually entering data into Oracle EBS. With Supplier Connect, we realized huge labor savings. There is no need to jump between email and ERP systems and the entire process is automated. Most importantly, Supplier Connect plugged right into our existing process"
